Dredging – Lower Bay

- Corps is planning a Lower Bay dredging project in late 2011/2012
 - Close coordination with the City
- Timing with the Rhine Project if possible
- Due to funding, it will be a smaller project (100,000 – 200,000 cy) instead of a complete project (1.2 million cy)
 - Use the federal funding we have (~\$2.2 M) before it is redistributed to other Corps projects
- Timeline
 - Bid in August
 - Award in September (before Federal FY end)

Areas Unsuitable for Ocean Disposal

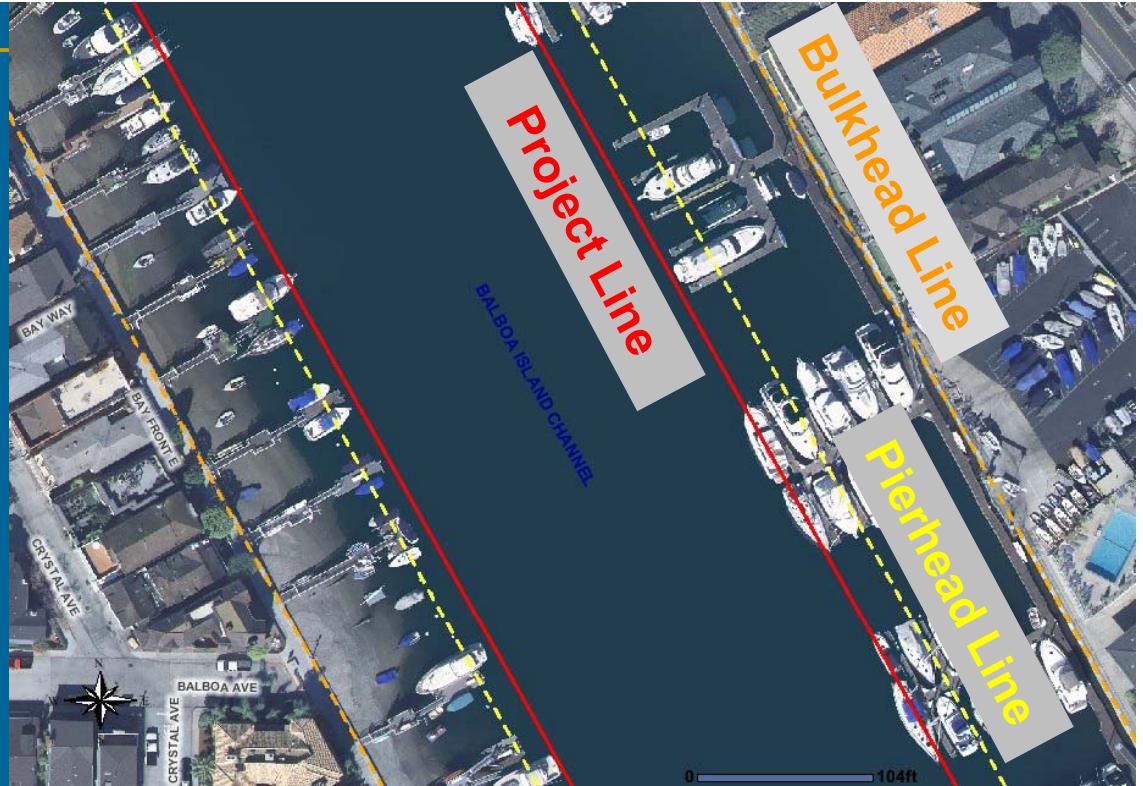

Dredging – RGP-54 Sediment Testing Last Week

Harbor Lines

- Army Corps outlined process for changing Harbor Lines in Newport
- Bulkhead and Pierhead Lines may be established, modified or deleted by local LA District Engineers.
 - Only if the line has a “legal significance under State or local law” and if the entity must comply with local law.
- Project Lines may only be changed through Congressional approval.

Copper Bottom Paints

- Washington State banned copper paint
- California SB 623 will ban copper paint (if approved):
 - *“On or after January 1, 2015, no manufacturer, wholesaler, retailer or distributor may sell or offer to sale in California, any new recreational water vessel with anti-fouling paint containing copper.”*
 - *“On or after January 1, 2019, the use or application of anti-fouling paint containing copper on recreational vessels in California shall be prohibited.”*

Boat Auction

- Largest auction yet
 - ❑ Over 40 boats
 - ❑ 75-100 people
 - ❑ Only 2 boats did not sell
 - ❑ \$3,600!!

Sea Lions

- Postcards will be sent to all pier permittees and mooring permittees
- Letters will be sent to commercial businesses
- Contractor will work in the summer months to assist in nuisance abatement

Attention Mooring and/or Pier Permittee

Sea Lion Ordinance
NEMC 17.25.020 and NEMC 17.50.100

Sea lions generally migrate down the Southern California coast between the months of May and October; are becoming more prevalent in Newport Harbor; and tend to compete for haul out locations by barking day and night causing a nuisance and keeping nearby residents awake.

- According to Newport Beach Municipal Code each permittee is responsible for the deterrent of sea lions from his vessel and/or piers.
- NBMC requires the permittee to take deterrent action within 7 days of notification from the City of Newport Beach at which point the permittee may be subject to fines.
- It is the permittee's responsibility to secure vessels, piers, and appurtenances from sea lion intrusion.
